It was reported that Broadland and South Norfolk Councils have launched a Pride in Place Community Grant, funded through the UK Shared Prosperity Fund. One of the projects supported by the grant is to cover 50% of the total capital cost of a project, up to £25,000, for investment in capacity building and infrastructure support for local civil society and community groups. This would include improving community facilities.

There is currently a project outstanding for the refurbishment of the toilets in the community centre. It was **AGREED** to proceed with this order.

15. To Consider the Update of Hellesdon Parish Council Website

Hellesdon Parish Council’s website in its current form was developed in 2015 and is built in WordPress. The current website has now lost functionality due to the way it was developed. The developer advised that the Parish Council should refrain from updating the functionality which was applied in 2015 as this would cause instability site wide. Recently the Parish Council lost use of some functionality (photo galleries) as it had become too outdated to continue use.

Prices were sought with a view to redesigning the site, adding additional functionality such as a calendar, contact page, making sure it is accessibility compliant, using a secure certificate for the domain / website and most importantly ensuring that all elements of the site can be updated inhouse in the future. The cost of redesigning the website is £1050, plus a one off cost for a secure certification of the domain and website at £165. There is £2000 in the budget for this project in 2022 / 2023.

It was **AGREED** to proceed with the website redesign.
